SUMMARY

Front-end developer with 5 years of experience in building interactive and efficient user interfaces, collaborating with cross-functional teams to deliver high-quality web applications.

WORK EXPERIENCE

1. **Front-End Developer**
   Global Logic, A Hitachi Group of Company, Bangalore
   June 2022 - Present

Samsung MLOPS- DS project and Samsung AI & MLOps platform (Jun 2022 - Feb 2024)

- Developed multiple complex pages resulting in enhanced user experiences.
- The application works Role Based Access Control (**RBAC**) for the logged-in users, which was one of the challenging tasks.
- Optimize application **performance**, ensuring fast rendering times and a seamless user experience.
- Resolved potential **security vulnerabilities** to ensure robust application security.
- I-frame integration in the application to seamlessly embed external content.
- Led **POCs** integrating 'Mermaid Live Editor' with Toast UI Editor, successfully for enhancing functionality.
- For pixel-perfect web pages always refer to Zeplin Screens and ensure consistency throughout the application.
- During the stabilization phase, fixed fortify issues and Open-Source Security issues.
- Assisted in UI/UX design discussions, contributing to user-friendly interface designs.
- Responsible for maintaining SAM score above 4.0 as per client standards.
- Involved in sprint planning, estimation, and guiding junior developers.

Invenco by GVR (Mar 2024 – present)
- Implemented UI enhancements and updates for existing modules using the Angular.js framework
- Created and executed test cases for Angular.js and react components using Jest.
- Developed, and maintained RESTful APIs for applications.
- Wrote and optimized SQL queries for data retrieval and manipulation
- Developed and executed unit test cases using Vitest for APIs

2. **Front-End Developer**
   Wipro Technologies, Pune
   June 2019 – June 2022

Slingshot Project

- Development of web pages, API integration
- Used React hooks, and Java Script ES6 features during development.
- Worked on API integration and Higher-order components.

- Implemented state management using Redux and designed reusable components to improve code maintainability.

SKILLS

- **Front-end Technologies**: ReactJs, Angular.js, HTML5, CSS, Sass, less
- **Tools and software**: Jira, Confluence, GitHub, Zeplin, harness, Figma
- **Programming Languages**: Java Script, Python
- **Frameworks and Libraries**: Material UI, Saga, Redux, Jest, Webpack, Parcel
- **Back-end Technologies**: Nodejs
- **Database Management**: PostgreSQL

AWARDS

- I received the 'Spotlight of the Month' award for November 2022 from Global Logic.
- Received 'Quarterly Eminence Award- Q3FY'24' in February 2024 from Global Logic.
- I received the 'Spotlight of the Month' award for June 2024 from Global Logic.

EDUCATION

- 2019 [APR] - **B.E** with **8.66** CGPA from "Gogte Institute of Technology, Belagavi, Karnataka"
- 2015 [APR] - **PUC** with **94.33%** from "Alva's PU College, Moodbidri, Mangalore, Karnataka"
